

GENERAL PURPOSE TROLLEY

DESCRIPTION

The Stellex range of general purpose trolleys are manufactured around a 25mm diameter stainless steel framework, which also forms the pushing handle. Shelves are produced from 1.2mm stainless steel grade 430 and formed with a recessed edge to the perimeter to contain products or spillages.

All trolleys are mounted on 5" peg fitting swivel castors, two of which are braked, for easy manoeuvrability.

General purpose trolleys are available with 2, 3 and 4 shelves.

2 shelf general purpose trolley

4 shelf general purpose trolley

FEATURES AND BENEFITS

Feature

- Stainless steel construction
- Satin brushed finish
- 25mm diameter tube
- Four swivel castors
- Two braked castors

Benefit

- High quality stainless steel used throughout for corrosion resistance
